

COLLECTION DEVELOPMENT ASSIGNMENT

SUBJECT LIST:

PEDIATRIC CARDIOLOGY  
AND  
ADULT ENDOCRINOLOGY

BY  
STELLE EKE  
AND  
DIANE MOSQUEDA  
OCTOBER 27, 2009

## OUR IMAGINARY LIBRARY

Type of library: Academic Health Sciences Library

Name of Library: Star University Academic Health Science Library

Location of Library: 1800 Medical Center BLV, Houston, TX 774000

Phone: 281-333-0000

Fax: 281-333-0012

Hours: M-S: 0700-2300

### LIST OF POTENTIAL SERVICES

1. Current medical textbooks, articles, journals, audiotapes
2. Provide members with remote access
3. Training workshop on literature search
4. Reference assistance
5. Historical collections.
6. Quiet study rooms
7. Electronic and print journals
8. Electronic and print books
9. Access to Pubmed
10. Photocopying and printing services
11. Research assistance
12. Discipline specific search guide: Pharmacy, Medicine, Nursing, etc
13. Inter-library book loan

### MISSION STATEMENT

The purpose of Star University Academic Health Science Library's existence is to provide quality, sound, reliable and current health and medical information relevant to the needs of students, faculty and researcher users alike.

### VISION STATEMENT

1. Star University Academic Health Science library contains a wealth of frequently sort health and medical information that suites the needs of its clientele.
2. The star University will continuously work to meet the research, educational and patient care information need of faculty, staff and students
3. Provide quality current medical and health information
4. Staff is well motivated and readily available to help students, researchers and faculty.
5. In an effort to serve its clientele efficiently, the health science library will collaborate with other community health science libraries as needed in providing updated health information for students and teachers
6. Utilize staffs that are well knowledgeable in information technology.
7. Assist medical, Nursing and educators in their goal of contributing knowledge of diagnosis, treatment, cure, rehabilitation, and prevention of diseases

## MUST HAVE LIST

1. AAFP Conditions A to Z
2. AHFS Drug Information (2009)
3. Current diagnostics and Treatment cardiology (2009)
4. Current Diagnosis and Treatment in pediatrics (2009)
5. DeGowin's Diagnostic Examination (2009)
6. Delmar's Guide to laboratory and Diagnostic tests
7. Harrison's Principles of Internal medicine (2008)
8. Hurst's The Heart (2008)
9. Rudolph's Pediatrics
10. Taber's Cyclopedic Medical Dictionary (2009)
11. ICD-9-cm- volumes 1, 2 & 3(2010)
12. 5-minute Pediatric consult
13. PDR
14. Wong's Essentials of Pediatric Nursing.

**PEDIATRIC CARDIOLOGY PRINT BOOK TITLE JUSTIFICATION:  
DIANE MOSQUEDA**

Print Book Title	Justification
1.Pediatric Cardiac Surgery	<ol style="list-style-type: none"> <li>1. Dr. Constantine Mavroudis, internationally recognized congenital heart surgeon, author, educator and research specialist, joins Cleveland Clinic Children’s Hospital’s renowned cardiology and cardiac surgery staff as Chairman, Pediatric &amp; Congenital Heart Surgery.</li> <li>2. In addition to his clinical achievements, Dr. Mavroudis is a well-known educator and researcher. He has published over 300 peer-reviewed articles and book chapters. He is the Editor of the standard textbook, Pediatric Cardiac Surgery, now in its third edition, and has served as editor or co-editor for many other textbooks.</li> <li>3. Purchased by Houston Academy of Medicine-Texas Medical Center, Countway Library of Medicine: An alliance of the Boston Medical Library &amp; Harvard Medical School</li> <li>4. Scholarly and reviewed</li> </ol>
2.Nadas’ Pediatric Cardiology	<ol style="list-style-type: none"> <li>1. John F. Keene Professor in Pediatrics, Harvard Medical School Boston, Massachusetts and Children's Hospital Boston Department of Cardiology. Included in The Best Doctors in America, 2nd edition, 1994, 1996.</li> <li>2. James Lock received his MD from Stanford University School of Medicine. He completed an internship and residency at the University of Minnesota Hospital &amp; Clinics and a fellowship at the Hospital for Sick Children in Toronto. James Lock's research focused on improving procedures to correct congenital heart defects in infants and children. He has developed and provided the initial descriptions of nearly a dozen new techniques in interventional cardiology</li> <li>3. Purchased by Houston Academy of Medicine-Texas Medical Center, Countway Library of Medicine: An alliance of the Boston Medical Library &amp; Harvard Medical School</li> <li>4. Scholarly and reviewed</li> </ol>

<p>3.Heart failure in Children and young Adults: From Molecular Mechanisms to Medical and Surgical Strategies</p>	<ol style="list-style-type: none"> <li>1. Dr. Towbin has published over 270 peer-reviewed publications, several book chapters, has been awarded many NIH grants, including a current Program Project Grant and a Cluster Award, and is the recipient of several specific private donations to support his research, as well as receiving many honors nationally and internationally, including the Michael DeBakey Excellence in Research Award.</li> <li>2. Dr. Chang's primary clinical area of research involves myocardial function and performance in the setting of cardiac intensive care. Subareas of interest include pharmacologic agents in the neonate or infant, methods of mechanical support, molecular mechanisms of heart function, cardiopulmonary interaction, catecholamine resistant shock, single ventricle physiology, and technical advances in monitoring for low cardiac output syndrome.</li> <li>3. Scholarly and reviewed</li> </ol>
<p>4.Nursing Care of the Pediatric Surgical Patient</p>	<ol style="list-style-type: none"> <li>1. Scholarly</li> <li>2. Reviewed by peers: Recommended by NAPNAP, The National Association of Pediatric Nurse Practitioners. The PNP Book Corner offers the opportunity for individuals (including NAPNAP members), partner organizations, or publishers to submit pediatric textbooks that they have authored/edited. The book is then reviewed by a NAPNAP member expert and posted on the NAPNAP website along with a link to the ordering information. The target audience for books must be nurses and/or advanced practice nurses (APNs) who provide health care to children and families, with a content focus on pediatric/child health.</li> </ol>
<p>5.Moss and Adams' heart disease in infants, children, and adolescents, Volume 1 &amp; 2</p>	<ol style="list-style-type: none"> <li>1. Scholarly: Has 50 world-renowned experts in pediatric cardiac surgery</li> <li>2. Purchased by Houston Academy of Medicine-Texas Medical Center, Countway Library of Medicine: An alliance of the Boston Medical Library &amp; Harvard Medical School</li> <li>3. Scholarly and reviewed</li> <li>4. Doody's Core Titles™ 2009."</li> </ol>
